

Bennett & Bennett

HG1D ESD Heel Grounder

Specifications

Heel Cup: Specially reinforced black carbon loaded rubber outside and white, insulative rubber inside. Resistivity of contact rubber is between $10^4 - 10^5$ ohms

Heel Cup Size: 1.5" x 7.5"

Tab Size: .375" x 18" long

Tab Material: Knitted ribbon with silver conductive monofilament sewn on to heel cup.

Tab Resistance: 1 meg ohm resistor sewn in

Resistor: Sewn in tab assembly with 1 Meg Ohm .25 watt chip resistor.

Ankle Adjustment

Material: "D" ring

Spandex heel Strip: 1" x 6.5" cross-stitched to the heel cup.

Charge Decay: 5000V to technical zero in less than 2 seconds.

Meets or exceeds: All US European requirements.
