

HGC-SV1 Specifications

Heel Cup: Specially reinforced black carbon rubber outside and white insulative rubber inside. Resistivity of contact rubber is between $10^4 - 10^5$ ohms

Heel Cup Size: 1.5" x 7.5"

Tab: Conductive .375" x 18" long with 1 megohm resistor

Resistor: Sewn-in tab assembly uses 1 megohm .25 watt chip resistor

Ankle Adjustment: Stretch Velcro

Charge Decay: 5000V to technical zero in less than 2 seconds

Meets or Exceeds: All US and European requirements
